

# Northern California's Largest Independent Generator Service Company

## Rentals | Service | Parts | Sales

### Need a Generator Fast?

CD & Power generator technicians respond to emergency service calls 24 hours a day, 7 days a week, 365 days a year. With fully stocked 4-wheel drive trucks, our technicians have the parts and the experience to safely hook up a generator, add fuel, and troubleshoot and repair problems when needed. We have serviced and maintained generators and diesel engines from all makers since 1985.

### Rental Generators

Our fleet of 100+ rental generators, from 10 kW to 1 megawatt, is kept at a high state of readiness. Before it's rented, each generator undergoes a thorough check-in/ check-out procedure at both of our facilities. Customers are assured of the reliability and availability of the proper size generator when they need it. Our customer service team personally verifies the proper generator size to support the load and to ensure safe, reliable operation. Each generator is rented with the necessary cables, safety ramps and fueled as needed.

### Service, Parts & Sales
