

PORTABLE SOLAR GENERATOR RENTAL

Clean, Portable Solar and Hybrid Solar Power

Portable and versatile, our low-maintenance solar trailers are the quiet, clean, and cost-effective power option you and your employees will wish you had all along.

Common Applications

Construction projects, off-grid homes and water pumping stations.

Power

Our solar trailers are configured to deliver an average of 16 kWh per day from the solar panels alone. Select a hybrid-solar unit, equipped with a gas generator, to provide additional energy.

Maintenance

- Solar units require only periodic servicing to clean the solar panels and check the status of the batteries.
- Hybrid-solar units, equipped with gas generators, require fueling and periodic maintenance.
- All solar and hybrid-solar trailers are delivered with fully-charged batteries, ready to use!

Solar Trailer Specifications

Power	16 kWh average daily harvest; max 50 amps (max 133 amps when equipped with generator)
Dimensions	5' x 9' enclosed trailer
PV Modules	8 x 335 Watt
AGM Battery	Deep-cycle 48V, 55 kWh capacity (75 kWh for hybrid solar trailers)

Large Rental Generator Fleet

We have been the go-to provider of remote portable and backup power for over 30 years. Contact us for rental pricing and availability of a portable solar generator or one of our modern, clean-running diesel generators.
